

THANDO FANA DLAMINI

DATA ANALYST | APPLIED MACHINE LEARNING

Eswatini | +268 7870 0044 | +268 7971 1996 | dlaminithandofana@gmail.com

LIVE PORTFOLIO

PROFESSIONAL SUMMARY

Data analyst with hands-on project experience transforming complex datasets into clear insights and deployable analytical products. Proficient in Python, SQL, Excel and Power BI, with applied experience in statistical analysis, feature engineering, machine learning and model explainability. Built and deployed an end-to-end analytics solution spanning raw data preparation, validated modelling, API integration and a public web application.

TECHNICAL SKILLS

Analytics: SQL, Excel, Power BI, statistical analysis, survey-weighted analysis

Python & ML: Python, pandas, NumPy, scikit-learn, feature engineering, SHAP

Development: FastAPI, REST APIs, React, Next.js, Git, GitHub

FEATURED PROJECT

FinAccess Eswatini | [Live App](#) | [GitHub](#)

Explainable Machine Learning for Financial Inclusion and Mobile-Money Adoption

- Built and deployed an end-to-end explainable machine-learning application using World Bank Global Findex microdata to identify factors associated with financial inclusion and mobile-money adoption in Eswatini.
- Prepared and analysed 1,051 survey responses across 199 raw variables using survey weights, statistical testing, leakage review and feature engineering; developed two protected-holdout pipelines reaching ROC-AUC 0.745 and 0.726.
- Translated predictions into SHAP-based explanations and delivered the models through a FastAPI service and responsive Next.js/React application deployed publicly on Vercel, making model outputs accessible to nontechnical users.

EXPERIENCE

Datamatics Eswatini | Software Developer Intern

- Supported software development and technical implementation activities during an internship placement, contributing to assigned development tasks and practical delivery.

EDUCATION

University of Eswatini | Bachelor of Science in Information Technology - Final Year

CERTIFICATIONS

Google Data Analytics Professional Certificate | Google / Coursera | Mar 2023

Excel Skills for Data Analytics and Visualization Specialization | Macquarie / Coursera | Apr 2023
